SUMMARY

UI/UX and graphic designer who turns blank pages into products and campaigns people enjoy using — Figma landing pages and app flows, social campaigns, and motion graphics. I integrate AI across my workflow (Claude for ideation & code, ChatGPT for assets, Gemini for motion) to move faster without losing craft, and pick up video editing or front-end code when a project needs it. BE in Information Technology; Google UX Design certified.

SKILLS

UI/UX: User Research, Wireframing, Prototyping, Interaction Design, Design Systems, Information Architecture, Responsive Design

Design Tools: Figma, Adobe Photoshop, Illustrator, Affinity, Canva, Wix Studio

AI Tools: Claude (ideation & Claude Code), ChatGPT (image & asset generation), Gemini (video), Canva AI, Cursor, Lovable

Video Editing: Adobe Premiere Pro, After Effects, CapCut, Canva

Development: HTML, CSS, JavaScript, React, Node.js, Tailwind CSS, Git/GitHub

Certification: Google UX Design Professional Certificate (Coursera, 2025)

EXPERIENCE

Wagman Digital — *Junior Graphic Designer (Part-Time)* **June 2024 – May 2025**

- Designed infographics, blog graphics, and social creatives for digital campaigns, plus branding materials and web layouts aligned to client identity.
- Created eBook designs and optimized visuals for LinkedIn and other platforms to boost engagement.

A. P. Shah Institute of Technology — *Design Co-Head* **A.Y. 2023 – 2024**

- Led the design team for college events and festivals — banners, posters, social posts, thumbnails, and stories.
- Kept branding and creative direction consistent across teams and platforms.

Independent — *Video & Content Editing* **Ongoing**

- Cut a pharmacist-led UGC ad reel for Skinox ("Regrow" serum) as an assignment for APE Marketing — kinetic captions, product b-roll, and ingredient call-outs.
- Produced a 49-second After Effects motion-graphics opener for a global mental-health alliance — a living world map with country cards, a flag ticker, and member photo pins.
- Edit short-form branding reels and personal content (Instagram Reels, YouTube Shorts) in Premiere Pro, After Effects, and CapCut.

PROJECTS

Flex Academy — Landing Page & Booking Flows (UI/UX) **2026**

A landing page and booking system for a short-term-rental education brand — one page serving two audiences (a beginner "Launch" path and an operator "Scale" path), with three prototyped conversion flows and a reusable component library. (Figma, UX/UI, Prototyping, Design Systems)

SmartSanstha — Gamified Constitutional Literacy Platform **2025**

Co-designed a platform making the Indian Constitution engaging — quizzes, courtroom simulations, an AI chatbot, and a 40+ screen design system — my BE major project. (Figma, Information Architecture, Gamification)

Flavr — Food Delivery Product Design **2025**

Designed and prototyped a food-delivery concept in Figma — live kitchen transparency, dish-level reviews, group ordering — then built it as a working React site. (UX Research, Wireframing, Prototyping)

PRIME Hydration — Motion-Led Product Site **2026**

Self-directed drink-launch concept where scroll drives a cinematic reveal and liquid flavor dissolve with a 3D bottle — assets & motion via AI (ChatGPT, Gemini), built with Claude Code. (Art Direction, Motion Design, GSAP, Three.js)

Remax Furnitures — Social Media Brand Campaign **2025**

Turned 6 products into 3 art directions across 9 Instagram carousels that stitch into one storefront grid — AI-generated imagery, finished in Canva. (Art Direction, Social Media, Retouch)

Also self-published "Claude AI for Engineering Students: 50 Prompts to Study Smarter" on Amazon KDP.

EDUCATION

A. P. Shah Institute of Technology, Thane — BE Information Technology **2022 – 2026**

New English High School & Junior College, Ulhasnagar — HSC (Science) **2020 – 2022**
